## CUSTOM DESIGN

### Your Mail Represents You

Is your business judged by the appearance of your mail? Chances are, yes. People judge a book by its cover, and your mail represents you everywhere it goes. Endicia Internet Postage lets you create professional designs for your mail and print postage directly on it.

Regular mail vs endicia mail

### Promote Your Business

Your envelopes and packages carry more than mail—they carry valuable advertising space. Whether you're building a brand, offering a product, or simply thanking a customer, make sure your message is on the outside of every piece of mail that leaves your door.

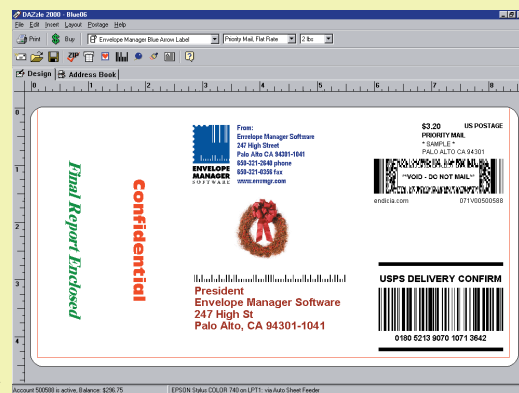

### Design Your Mail

Endicia Internet Postage is based on an award-winning mailpiece design tool that lets you design envelopes, postcards, and labels with postage, color graphics, logos, pictures, text messages, and rubber stamps. You can customize multiple layouts and reuse them over and over again. You're no longer tied to a single envelope with a logo or a sticker. Creating these layouts couldn't be easier: just select an envelope, postcard, or label size; import your graphics and type-in your text; then use your mouse to position and scale the layout.

## CONFIRMATION AND TRACKING

### Don't Waste Your Time

You don't need to make a trip to the Post Office, fill out Delivery Confirmation forms, or buy stamps to send Priority Mail packages. With Endicia Internet Postage, you send Priority Mail with electronic Delivery Confirmation right from your office. Simply select an address, print the label, stick it on the package, then drop it off in a mailbox or hand it to your mail carrier. You get the peace of mind of tracking your package without having to use expensive shipping vendors.

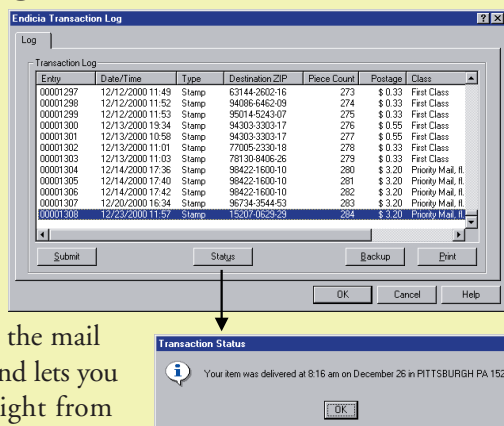

### Get Free Delivery Confirmation

The best part is—electronic Delivery Confirmation for Priority Mail is *Free of Charge*. You save \$0.40 on every package you send compared with regular Delivery Confirmation!

### Track Packages From Your PC

You don't have to hold on to receipts, write down tracking numbers, or call anyone to track your mail. Endicia Internet Postage keeps a log of all the mail that you create, and lets you track packages right from your PC. Simply select the item from the Postage Log and click the Status button.

*Next time you send a letter, postcard, or package—don't just mail it—endicia mail it.*

## Features

- Custom envelopes, labels, flyers, and postcards
- First Class Mail, Postcards, Priority Mail with electronic Delivery Confirmation, & Express Mail
- Address book
- Free Internet address verification
- Interfaces to Outlook and Act!
- Importing, positioning, and scaling any number of graphics or logos:
  - BMP, WMF, TIFF, PCX, GIF
  - Exact scale specification
- Placement and positioning of text boxes, rubber stamps, and addresses:
  - Fonts, font weights, color, and spacing
  - Alignment and rotation
- Automatic guards to prevent violation of USPS placement rules & printer margins

*Just wanted to let you know that this is the best combination of printing, zip code access, and postage buying I've seen! I use your competition, but this beats them hands down.*

John Miller, Nantucket, MA

## System Requirements
